Religious Life on Campus:

JCT prides itself on being a religious institution that combines academic excellence with passionate Torah learning and life. Located at the heart of the Lev Campus for men, is the large central Beit Midrash under the leadership of Rosh Yeshiva, Rabbi Yosef Ziv Rimon. Each morning, students in Machon Lev's International Program study a wide range of Torah topics with Rabbi Shalom Rosner, Rosh Beit Midrash of the International Program. They continue into academic classes after Mincha.

The Midrasha at the Tal Campus for women spans an entire floor of our main building and is led by Rabbi Yonatan Oren. Classes are taught by a wide range of teachers and Rabbis, including Rabbi Rosner each day. The hashkafa that Midrasha learning is Torah L'ishma guides our teachers and students. We believe that the proper development of a student take place both inside the Beit Midrash and in the academic classroom.

Religious life on both campuses is rich. Students enjoy additional learning opportunities, Shabbatot featuring guest speakers, trips across the country, festive celebrations of Chagim and more.

“ We are building a vibrant and warm makom Torah where students can strive and grow in both their Torah learning and academic studies. Our program will Be”H serve as a springboard for a life filled with Torah and avoda, coupled with dedication to our People and Eretz Yisrael. ”

–
Rabbi Shalom Rosner

Annual Tuition & Fees

	TUITION	STUDENT FEES (INC. ULPAN)	DORMITORY
TAL CAMPUS	USD 5,560	USD 4,500	USD 4,500
LEV CAMPUS	USD 5,560	USD 4,500	USD 4,500

*These figures are estimates. JCT costs are in New Israeli Shekels. JCT reserves the right to change fees at any time.

The Tal Campus for Women

Established in 1990, Tal Campus for Women is Israel's first women-only engineering, technology and healthcare college in Israel. Today, Tal Campus graduates are sought after by employers in each of those sectors and are regarded as leaders in industry.

Tal's high level academic programs, enriched by a comprehensive Jewish studies program, have earned the college a reputation of excellence in Israel and across the Jewish world.

Tal's graduates attain senior positions in established firms including Intel, Texas Instruments, Check Point, IBM and throughout the Israeli defense industry. They are also regular founders and leaders in many Israeli startups.

Innovation. Empowerment. Excellence.

Degree Programs

Nursing (BSN)
Computer Science (BSc)
Business Administration (BA)
Software Engineering (BSc)
Industrial Engineering (BSc)
Bioinformatics (Pre-Med Track) (BSc)

The Lev Campus for Men

Established in 1969, Lev Campus for men is the College's original campus. Located in the heart of Jerusalem's Givat Mordechai neighborhood, Lev offers a unique combination of high-level academic degree programs alongside an enriching curriculum of Torah study.

Lev degree programs prepare graduates for the highly skilled workforce. Campus facilities include state-of-the-art research labs, academic and Judaic libraries, a Beit Midrash, on-site dormitories, dairy and meat cafeterias, as well as a sports and recreation center.

Degree Programs

Computer Science (BSc)

Fitness Center

Lev Campus features a state-of-the-art fitness center. The facility is fully equipped with a wide range of exercise equipment, cardio machines, changing rooms and showers.

Student Services & Opportunities

Career counselling center, academic tutors, psycho-didactic testing, sports competitions, volunteering opportunities, hackathons, JLIC and Student Union activities and special event.

Dining Options

Lev Campus offers both dairy and meat cafeterias where food can be purchased at a subsidized price.

Dorms

Lev Campus has on-site dormitory buildings that accommodate single men and married couples with young children. Tal Campus has rented apartment dorms near that campus. Dorms are affordable and offer accessibility to all the College's facilities and services.

**This degree will be offered if there is sufficient registration.

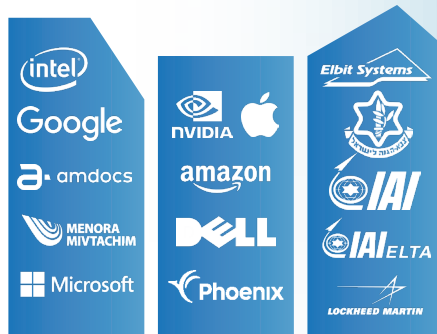

Where are JCT alumni today?

JCT alumni are in high quality careers in every sector.

For decades, JCT alumni have played pivotal roles, shaping Israel's defense with an outsized presence across air defense systems, satellite technologies, terror tunnel detection, the cybersecurity frontier and more.

JCT alumni and faculty contribute to major advances in fields ranging from cyber security to medical technology and driving safety and have spearheaded projects critical to Israel's national security.

JCT alumni are found throughout Israeli high tech:

Over 100 startups have been created by JCT Alumni, strengthening the Startup Nation. They include:

What our alumni have to say

“

“The main reason I chose JCT was the religious environment coupled by a recognized technology degree. There is not a single college that is on par with JCT on a religious level while still maintaining a competitive educational level.”

Dovid Samuels, Memphis, TN
Software Engineer, Mobileye
BSc, Software Engineering, 2020

“

“I chose to study at Machon Tal so that I could learn in English, and immerse myself in a religious environment, whilst still earning a high level degree. I love it here.”

Adina Segel, London, England
BA, Business Administration, 2026

“

“I found great value in my education at JCT. The networking opportunities, especially with professors was very special.”

Ari Gershon, Beit Shemesh
Technical Business Development
Project Manager, Mobileye
BSc, Computer Science, 2019
MSc, Data Mining, 2022

“

“I’m so glad I chose to study at JCT; it gave me so much. I registered for extra courses and they developed my entrepreneurial business thinking beyond ‘just’ tech. I enjoyed studying with my classmates and had a job in Israel Aerospace Industries before I even graduated.”

Matan Fichman, Nechusha
Data Scientist, NRIICH
BSN Computer Science, 2019
MSN Data Mining, 2022

“

“The program was fascinating. Machon Tal’s outstanding reputation is well-deserved. JCT maintains high standards while emphasizing professional ethics. The friendships I formed during my studies remain strong to this day. I couldn’t be happier with my decision.”

Miriam Greenwald, Jerusalem
Nurse Manager, HMO Clinics
BSN, 2018

“

“I chose Machon Tal because it’s more than just a university; it’s a place where I can study in a familiar language, stay true to my religious values, and feel at home in Israel where we all belong.”

Sarah Gozal, Madrid, Spain
BA, Business Administration, 2022

“

“JCT courses left an indelible impression on me and my degree shaped my career trajectory. I’m certain that my undergraduate education provided the essential foundation for everything I know and do today.”

Dina Goldman Altura, Jerusalem
Founder and CEO, Business Boss
BA, Business Administration

JERUSALEM COLLEGE OF TECHNOLOGY

Founded in 1969, the Jerusalem College of Technology (JCT) is the second largest academic institution in Jerusalem, with approximately 4,500 students on three campuses. The International Program in English offers students the opportunity to obtain a prestigious academic degree, coupled with immersive Torah study.

The College specializes in computer science and engineering, industrial management, business administration and life and health sciences combined with a Jewish studies program.

For 55 years, JCT's advanced academic leadership, high ethical and professional standards, and distinct emphasis on practical applied skills have earned the College international recognition for excellence.
